

We'd like to take the opportunity to directly address concerns and questions pertaining to the coronavirus (COVID-19), with regard to the Twin Valley Food Pantry.

Like many across our country, we at Twin Valley Food Pantry (TVFP) share our concerns about how this virus is affecting our community, businesses, and institutions for which we interact with, support and visit daily. As we continue to monitor our best course of action in changing and developing situations, we will continue to rely on the facts released by local, state, and federal health authorities and will take every possible precaution and preventative measure to mitigate risk.

The TVFP takes every effort to ensure we maintain a facility through our already detailed cleaning and sanitation efforts, in addition we will be ensuring thorough and frequent disinfection of all common points of contact to include door handles, common areas, distribution equipment, and restrooms. We are asking all visitors to utilize best hygiene practices during visits to the TVFP and take advantage of provided sanitization items.

During this global pandemic, the TVFP will be modifying our distribution process to implement "social distancing" and modifying our client choice shopping experience by providing basic food staples only. We are implementing a drive through only process providing our clients we a good selection and variety of non-perishable and perishable foods. We will keep everyone apprised of any changes through several avenues of communications to include our Facebook page and our email distribution listing. You can always contact us directly at 610-286-9124 or message us on FB.

*** If you are at higher risk for serious illness from COVID-19 because of your age or because you have a serious long-term health problem, it is extra important for you to take actions to reduce your risk of getting sick with the disease. We are encouraging those volunteers that fall into the above category to use discretion on whether to attend our stocking and distribution nights. Your health is extremely important to our team.***

We continue to urge our volunteers and visitors to exercise appropriate caution while remaining calm and focused on facts and credible information. We will continue to monitor this situation very closely and will base any response on details and directives issued by governmental health officials.

We thank you for you're understanding and appreciate everyone's discernment and care through this global event. Please join us in prayer for those affected by this virus. Ultimately, we know that our God created and sustains the earth and we don't have to live in fear. Philippians 4: 6-7 *"Do not be anxious about anything, but in every situation, by prayer and petition, with thanksgiving, present your requests to God. And the peace of God, which transcends all understanding, will guard you hearts and your minds in Christ Jesus."*

Sincerely,

Carol and Howard Moss

Managing Directors, Twin Valley Food Pantry
